

Standard Panels

Description	Configuration Details	Part #	Page #
Base Tier 3 Panel	MVP (Tier 3) with Throttle in 7000 Series Panel	MVP-A7102-01	2
Base Tier 4 Panel	MVP (iT4) with Throttle in 7000 Series Panel	MVP-A7202-01	3
Base Tier 4 Panel	C Series in 7000 Series Panel	C4-E7000-01	4
Base Autostart Panel	C Series in 8000 Series Panel	C4-E8000-AS-01	5
Full Feature Autostart Panel	C Series in 8000 Series Panel (Super Pump 2 Specification)	C4-G8300-AS-01	6

OEM or Application Specific Panels

OEM/Application	Configuration Details	Part #	Page #
Chipper Application	MVP (Tier3) with Throttle in 3000 Series Panel	MVP-A3102-01	7
US Sugar w/ Wireless Operation	C Series in 8000 Series Panel with Wireless Control	C3-F8135	8
Cutting Systems	C Series in 4000 Series Panel (Configured for Cutting Systems)	C3-F4026	9
Durand Wayland #1	C Series in 7000 Series Panel (with Integrated Sprayer Control)	C4-E7111	10
Durand Wayland #2	MVP Series in 6000 Series Panel	MVP-A6121-01	11
GM Gas Panel	C Series in 2500 Series Panel for GM Gas Engines	C3-E2527	12
Marine Panel	Marine Panel with Gauges and Alarm Horn	M3-4600-12V M3-4600-24V	13-14
Vac-Con	In development	TBD	15

BASE Tier 3 Panel – MVP Series

MVP-A7102-01 Panel Specification

MVP mounted in 8" x 8" polycarbonate enclosure with clear cover (can be latched and locked)

- **Manual Start**
- **Engine Display**
- **Throttle Control** (via MVP UP and DOWN buttons)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** (mounted on bottom of panel)

➤ **Optional Hare/Turtle Throttle Switch Kit**

70-0402-1 Throttle Switch Kit
Plugs directly into panel and MVP module.
For customers who want hare/turtle switch
instead of using MVP UP and DOWN buttons.

BASE iT4 Panel – MVP Series

MVP-A7202-01 Panel Specification

MVP mounted in 8" x 8" polycarbonate enclosure with clear cover (can be latched and locked)

- **Manual Start**
- **Engine Display**
- **Throttle Control** (via MVP UP and DOWN buttons)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** (mounted on bottom of panel)

➤ **Optional Hare/Turtle Throttle Switch Kit**

70-0402-1 Throttle Switch Kit
Plugs directly into panel and MVP module.
For customers who want hare/turtle switch
instead of using MVP UP and DOWN buttons.

BASE iT4 Panel – C Series

C4-E7000-01 Panel Specification

C Series display mounted in 8" x 8" polycarbonate enclosure with clear cover (can be latched and locked)

- **Manual Start**
- **Engine Display**
- **Throttle Control** (via UP and DOWN buttons)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** (mounted on bottom of panel)

Auto Start iT4 Panel – C Series

C4-E8000-AS-01 Panel Specification

C Series display mounted in 8" x 10" polycarbonate enclosure with clear cover (can be latched and locked)

- **Manual & Auto Start**
- **Engine Display**
- **Throttle Control** *(via UP and DOWN buttons)*
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** *(mounted on bottom of panel)*

Full-Feature iT4 Panel – C Series
Super Pump Specification

C4-G8300-AS-01 Panel Specification

C Series display mounted in 8" x 10" polycarbonate enclosure with clear cover (can be latched and locked)

- **Manual & Auto Start**
- **Full Set of Inputs & Outputs**
- **Engine Display**
- **Throttle Control** (via UP and DOWN buttons)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** (mounted on bottom of panel)

OEM/Application Specific

MVP-A3102-01 Panel Specification

- **Manual Start**
- **Engine Display**
- **Throttle Control**
(Up/Down Buttons on MVP Unit OR Optional Hare/Turtle Switch)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Power Coated Steel Panel**
- **21 Pin Connector** *(to Deere Engine Harness)*

MVP Series Display

OEM Specific

C3-F8135 Panel

(with receiver and antennae installed)

Radio Receiver
Installed and wired into panel by Controls, Inc.

Part #	Description
TR-100	Handheld Transmitter
C3-F8135	Panel with Receiver & Antenna Installed
44-0000	Optional Emergency Stop Button <i>(installed on panel)</i>

Handheld Transmitters

- Two transmitters shipped with each panel
- 9V Battery
- Increase/Decrease Engine Speed
- Start/Stop Engine
- On/Off to Start/Stop Hydraulics Solenoid Switch *(like a float switch)*

OEM Specific

C3-F4026 Panel Specification

Customer Specific Inputs (Normally Open - Close to Ground to Activate)

- #1 - Remote Stop with display message (*loose wire, customer to wire to remote unit engine stop circuit*)
- #2 - Low Idle Speed (*loose wire, customer to wire to throttle relay per drawing*)
- #3 - High Idle speed (*loose wire, customer to wire to throttle relay per drawing*)
- #4 - Low Hydraulic Tank Level Shutdown with display message (*loose wire, customer to wire to switch*)
- #5 - High Hydraulic Tank Temperature Shutdown with display message (*loose wire, customer to wire to switch gauge mounted in panel*)

Customer Specific Output

- #1 - 10A fused auxiliary power circuit energized when control is powered (*customer to wire for power auxiliaries*)

Notes

- This specification utilizes the C3-200 level unit.
- Access to the five inputs and one output is provided via 12 inch leads
- This is a manual start panel (panel started at key switch)
- 2" hole for field installation of Murphy Switch gauge (provided in 4000 series panel)
- High idle speed limited to 2400 rpm
- Low idle speed limited to 800 rpm
- Ramp rate = 100 rpm/second
- Unique panel part numbers are assigned to account for pre configured input settings

OEM Specific

C4-E7111 Panel Specification

Customer Specific Outputs

Mil Spec Switches and Labeling for the following:

- #1 – Left ON/OFF Toggle Switch
- #2 – By-Pass ON/OFF Toggle Switch
- #3 – Right ON/OFF Toggle Switch

Customer Specific Connector

- #1 – 21 Pin Connector with Wires for Both Engine Harness & Sprayer Control Switches
- #2 – Connector Location – Middle of Back Side (to fit inside mounting bracket)

21 Pin Connector

Pin	Function
B	Battery Positive
E	Battery Negative
G	Key On Power
D	Crank Signal
V	J1939 High
U	J1939 Low
J	Alternator Excite
L	Sprayer – Left ON/OFF
M	Sprayer – By-Pass ON/OFF
C	Sprayer – Right ON/OFF
T	Sprayer – Common Battery Plus
coiled inside	Fuel Level Sender
coiled inside	Digital Input 1

Notes

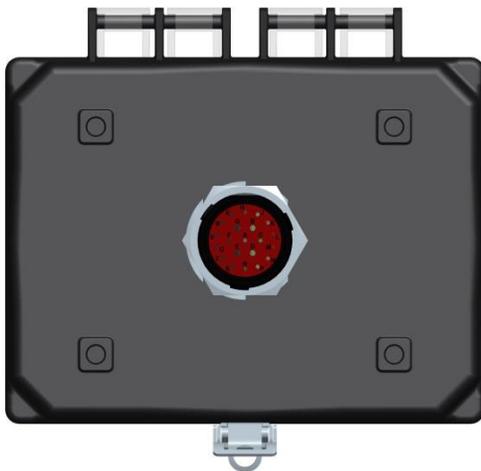

- This specification utilizes the C4-100 level unit.
- This is a manual start panel (panel started at key switch)
- Operating speed = 2400 rpm
- Idle speed = 800 rpm
- Ramp rate = 100 rpm/second

OEM Specific

MVP-A6121-01 Panel Specification

MVP mounted in 8 x 6" polycarbonate enclosure with clear cover (can be latched and locked)

- **Engine Display**
- **Throttle Control** (*Hare/Turtle Switch*)
- **Fault Code Reader**
- **Red/Yellow Alarm Lamps**
- **Key Switch**
- **Polycarbonate Enclosure with Clear Cover**
- **21 Pin Connector** (*mounted in center back of panel*)

Application Specific

C3-E2527 Panel Specification

- GM Gas Engine Panel
- E-Controls GCP ECU
- TSC1 Address 234
- CI Display Module C3-1015
- Manual Start
- Throttle Control
- Fault Code Reader
- Red/Yellow Alarm Lamps

Application Specific

M3-4600-12V
M3-4600-24V
Marine Panel

Optional transmission pressure
and temperature gauges

GEM028
Transmission
Pressure

GEM027
Transmission
Temperature

Panel Overview

- OLED Digital Display
- Engine Gauges
- Fault Codes (Active & Stored)
- Alarm Log
- Alarm Horn (with Silence)
- High Intensity LED Alarm Lamps
- Multiplexing Technology (for multiple panel installations)
- Optional Transmission Pressure & Temperature Gauges
- Optional Transmission Pressure & Temperature Alarms

Physical Elements

- All components water tight
- Robust metal photo panel
- All connectors water tight/plug and play
- Same footprint as RE521033 panel

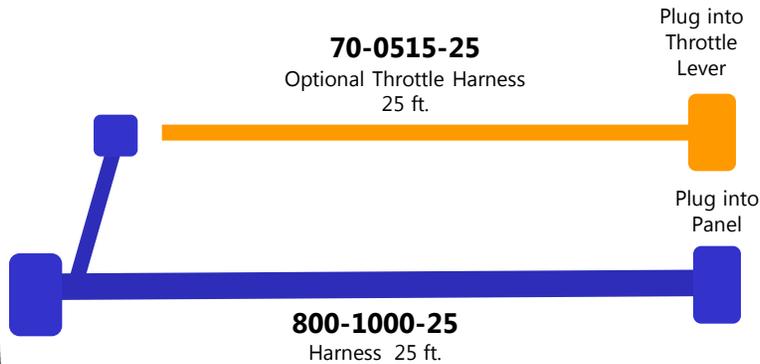

Gauges

- Engine Temperature
- Engine Oil Pressure
- Engine Tachometer
- Battery Volts

Keep It Simple

Controls, Inc. provides all panel components and wiring harnesses for a complete installation. Wiring harnesses provided in custom lengths.

ENGINE

M3-4600-12V
Panel
